Portfolio

## EDUCATION

**Sri Ranganathar Institute of Engineering and Technology** Coimbatore, TN, India  
**Bachelor of Engineering - Computer Science Engineering; GPA: 8.6** oct 2020 - june 2024  
*Courses: Operating Systems, Data Structures, DBMS, Software Engineering, OOPS, Computer Networks*

## SKILLS

### Technical Skills:

Programming Languages: Java, Python, JavaScript, HTML, CSS  
Framework and Library: React.js, Bootstrap  
Databases: MySQL,  
Version Control: Git, GitHub

### Soft Skills:

Problem-solving, Adaptability, Team Collaboration, Public Speaking

## EXPERIENCE

- Refinement Software Solutions** Offline  
*Continuous Skill Development (Java)* Aug 2022 - Sep 2022
  - Java Training:** Completed over 30 hours of rigorous coursework within three weeks, demonstrating flexibility in scheduling and commitment to mastering new programming concepts under tight deadlines while maintaining consistent academic performance.
  - Practical Experience:** Solved real-world problems and finalized assignments with an average test mark of 80% across four assessments.
  - Skills Acquired:** Gained proficiency in HTML, CSS, JavaScript, SQL, Core Java through 50+ hours of training.
- Magnus Solutions** Offline  
*Python Intern* Sep 2023 - Oct 2023
  - Project Overview:** Earned a solid foundation in Object-Oriented Programming (OOP) concepts including inheritance, polymorphism, and encapsulation.
  - Team Collaboration:** Distributed 20% of tasks among team members, ensuring timely updates via GitHub. Coordinated effectively through Microsoft Teams to maintain project momentum and address issues promptly.
  - Impact:** Developed a Python-based automation tool that streamlined internal workflows, reducing the time to complete tasks by 20%. Collaborated with cross-functional teams to optimize code performance, resulting in a 15% improvement in runtime efficiency.

## PROJECTS

- E-Commerce Website**  
*(User Interaction, Engagement, Checkout Optimization)*
  - Description:** Designed and developed a full-stack e-commerce website using HTML, CSS, and JavaScript. Integrated a user-friendly UI with a product catalog, shopping cart, and payment gateway. Improved user interaction by simplifying the checkout process and enhancing mobile responsiveness. Improved user experience with touch-friendly product sliders, resulting in a 5% increase in engagement.
- Rock Paper Scissor Game**  
*HTML, CSS, JavaScript*
  - Game Logic:** Implemented game logic to simulate user vs. computer interactions, resulting in 100+ game outcomes.
  - Performance Optimization:** Optimized game logic to reduce page load times by 30%, significantly improving user experience.
- To-Do List Application**  
*HTML, CSS, JavaScript*
  - Front-end Development:** Strengthened front-end development skills, contributing to a 15% faster development process for future projects.
  - Task Management Functionality:** Developed functionality using JavaScript to update tasks and track their status, leading to a 40% reduction in task completion time and improving user experience.
- Personal Blog Website**  
*(HTML, CSS, Bootstrap, JavaScript)*
  - Description:** Enhanced content accessibility and readability by 25% through clean layouts and responsive design, improving user retention.
  - Elevated User Interaction & Engagement:** Integrated intuitive navigation and interactive comment sections, leading to a 20% increase in user engagement.

## ACHIEVEMENTS

- : Participated in inter-college symposium and won 1st prize for error finding.
- : Successfully managed logistics for an event with 300 attendees, ensuring seamless execution.
- : Organized coding workshops to teach programming concepts to beginners.

## POSITION OF RESPONSIBILITY

- : Coordinated registrations, transportation, and schedules for the Industrial Visit to Kochi in Oct 2023, ensuring seamless operations and engagement.
- : Conducted interactive coding workshops, simplifying programming concepts for beginners through engaging activities.
